Points of Conversation (general discussion unless otherwise noted)

Tim O'Hearn gave an overview of the presentation given at the last public meeting. Some potential services discussed at the last panel meeting were removed from the list as no cost savings could be recognized.

Jane Ike – states she refuses to have Hector town taxes collected at the bank due to errors made by the bank. She stated the Courts wouldn't save any dollars other than lawyer costs which could result in large amounts of money.

David Reed – wonders if all of this binding? Tim stated that any decision made would not take over any home town rule. It is not the County's desire to take over Code Enforcement but if resources were pooled we could go further and do a much better job. Any significant savings would be in the Sheriff's Dept.
